

Food Drive!

In our August 2020 newsletter, we announced we were going to begin a Covid-19 canned food drive after what we had seen the scarcity of some food products and paper items during the onset of the pandemic. We built shelves in a storage area in anticipation of the results of the drive. We had some good response of actual canned goods being sent to our office and several financial gifts. We have started the process of purchasing large #10 cans of vegetables, sauces, fruits, powder milk, beans and meat. Our pantry will be filled soon and we can be at ease knowing we will have food at the ranch for our children in case of another "run" on the grocery stores. As always your generosity and love towards the needs of this ministry has blessed our staff and children abundantly!

God bless you!

We're glad you're here!

A big welcome to our most recent staff addition. This person needed no introduction to the ranch because she grew up here! Veronica Hernández Medina came to the ranch with her sister, Guadalupe and brother Alejandro when she was only nine years old. Because of their family situation, Veronica was the big sister/mother of her two siblings. The ranch became a safe haven for these three and Veronica graduated from our school system and continued her education in Ensenada. Due to a traumatic event in Ensenada she did not finish her trade school and came back to the ranch. She met her husband in San Vicente and they made a life for themselves in Culiacán, Mexico. After two years of a troublesome relationship with her husband she separated and she took her two girls to San Vicente to live with her sister Guadalupe. We were in need of a houseparent for our teenage girls house and when we presented the idea to Veronica her eyes lit up and she was all in. Her daughters, Laila, 8 and Dulce, 3, are making a home here at the ranch, going to school and helping their mother tend to the needs of our teenage girls. We look forward to the opportunity to work alongside Veronica.
